

Funeral Wishes

This form is designed to help you think about what sort of funeral you would like in the future. Please do not feel you need an answer to everything - sometimes it's easier expressing what you do NOT want. There is no right or wrong - everyone is different, but if you feel strongly about something - putting it in writing here will really help your loved ones in times to come and enable them to find comfort in being able to carry out your wishes.

Your details
